MY SUCCESS STORY

NELIDA R.

Nelida was born and raised in Tampa to a loving family. As a mother and wife, Nelida made a decision that many Americans struggle with today when it comes to caring for their families. As a parent of a sick child, Nelida broke the law. However, Nelida knew she needed help securing a better financial future for her family. Therefore, she took responsibility for her actions, turned herself into the authorities, and enrolled in Ready4Work-Hillsborough. Nelida completed career development classes and utilized the program's employment assistance to land her first job! As a full-time employee with a national specialty retailer, Nelida is now taking the necessary steps to equip herself with knowledge and tools to lead a financially healthy life. Your path to a bright financial future begins here at Ready4Work-Hillsborough!

“

“The Ready4Work-Hillsborough staff will go out of their way to help you even when you hit rock bottom. They will bring you up.”

Nelida R.

CAREER DEVELOPMENT MODULE

TODAY'S LESSON: Computer Literacy

“Technology has forever changed the world we live in. We're online, in one way or another all day long. Our phones and computers have become reflections of our personalities, our interests, and our identities. They hold much that is important to us.” – James Comey

Q: What is Computer Literacy?

A: The ability to quickly and easily operate a computer; familiarity with computer programs; and the internet.

Q: Why should I learn how to operate a computer?

A: Understanding how to operate a computer gives you access to unlimited information, and can open doors for you in all aspects of your life.

Q: Why should I start learning now?

A: Computer technology doubles every six years. Today's cell phones have more computer power than NASA used to send astronauts to the moon. Every day you put off learning about computers, puts you further and further behind.

Q: Where can I learn about computers?

A: Beginner computer classes are available at local libraries and community centers; or YouTube: Basic Computer Literacy Course Level 1, Part 1.

“Computers are incredibly fast, accurate and stupid; humans are incredibly slow, inaccurate and brilliant; together they are powerful beyond imagination” – Albert Einstein

About Ready4Work-Hillsborough

Ready4Work-Hillsborough, operated by Abe Brown Ministries, is a replication of the national Ready4Work program. Utilizing a four-pronged approach encompassing case management, life-coaching, employability training and job placement assistance, Ready4Work motivates and moves individuals to become productive, responsible citizens within the community. Commitments and strategic partnerships with faith-based organizations, local businesses, community outlets and the judicial system assist to ensure individuals transition successfully back into the community.
